# HackTheOzarks 2018

## April 27-28

**Sponsorship Information**

# What?

This hackathon is a 24-hour development marathon for undergraduates, ending with teams pitching innovative ideas to a panel of sponsors and judges. The experience provides students with valuable technical skills that they will need in their future careers. Students meet like-minded peers, interact with professionals, and network with recruiters.

HackTheOzarks is student- and faculty-run hackathon event that encourages students in all fields of study to come together to build real world applications that create positive change. This event is aimed at high-school and college students interested in technology development and is hosted at the Ozarks Technical Community College in Springfield, MO.

# Why?

The goal of this event is to foster creative ideas and teamwork in technology. HackTheOzarks supports innovation, diversity, and networking across the tech community of the Ozarks. This event is also the optimal environment for exposure to leading companies and newly developed technology.

# How?

By inviting sponsors such as you to support the event, our diverse range of attendees will have the opportunity to build confidence in their skills and develop real world technological solutions (often with our sponsors' technology!). HackTheOzarks is partnered with MLH, and we're working hard to incorporate progressive design values into the experience of our event.

### *How do you fit in?*

- Meet and recruit top tech talent
- Engage developers on your API
- Build a community of coders around your platform
- Market your company to students nationwide
- Provide mentorship

# Sponsorship Tiers
